

*TRAVIS NEILSON

//DESIGNER, THINKER, PHOTO-TAKER

FROM AN EARLY AGE TRAVIS COULD BE FOUND WITH A SKETCH PAD

trying to capture the beauty and structure in the world around him. This desire to engage and create stayed with him. In his adolescence he was able to find solid footing for his childhood passion by creating posters, flyers, web sites, t-shirts and album covers for his and other local bands. It was during this time that Travis decided on the direction of his life's work.

Currently, as the Creative Director for BRAINtrust Marketing + Communications, Travis is responsible for all design aspects of a client's portfolio, from web sites and magazine ads to annual reports and brochures, Travis has his finger in it all. He is married to the love of his life. In his spare time he tells jokes that are only moderately funny.
